

The Ultimate Trek

Trekking Kokoda has evolved from an adventure undertaken by a few hardy individuals into somewhat of a pilgrimage by Australians of all ages, experiences and fitness levels. Because of the serious military history and the nature of the physical terrain, trekkers are often surprised by how much they enjoy the walk itself. Not only is it undertaken in some of the most pristine rainforest on the planet, but like all groups of Australians, any where in the world, when faced with adversity, laughter appears to be the natural antidote.

The warmth and openness of the local people and the interaction you will have with the carriers is an intimate experience of a foreign, indigenous culture. The smiling faces from the local villages are a welcome sight after an exhausting day's hiking.

Step out with **Frontline Kokoda** and we will present you with your own ultimate trek documentary, professionally edited. The documentary will capture the spirit of your journey so your treasured memories are preserved forever.

Not only will you have the chance to bond with fellow trekkers on the track, **Frontline Kokoda - The Ultimate Trek**, provides you with a comprehensive package. You can feel confident knowing we are committed to you from pre-trek preparation to providing a personalised, professional guided trek leading you safely.
